Mastering Fear analyzes horror as play and examines what functions horror has and why it is adaptive and beneficial for audiences. It takes a biocultural approach, and focusing on emotions, gender, and play, it argues we play with fiction horror. In horror we engage not only with the negative emotions of fear and disgust, but with a wide range of emotions, both positive and negative. The book lays out a new theory of horror and analyzes female protagonists in contemporary horror from child to teen, adult, middle age, and old age. Since the turn of the millennium, we have seen a new generation of female protagonists in horror. There are feisty teens in *The Vampire Diaries* (2009–2017), troubled mothers in *The Babadook* (2014), and struggling women in the New French extremity with *Martyrs* (2008) and *Inside* (2007). At the fuzzy edges of the genre are dramas like *Pan's Labyrinth* (2006) and *Black Swan* (2010), and middle-age women are now protagonists with Carol in *The Walking Dead* (2010–) and Jessica Lange's characters in *American Horror Story* (2011–). Horror is not just for men, but also for women, and not just for the young, but for audiences of all ages. Interactive storylines allow readers to control the action and advance the story by their choices--leading toward more than two dozen possible endings--in this Slayer adventure that returns Buffy Summers and the Scoobies to the glory days of high school. The Helix was meant to be a revolution, but even the most pure of intentions can spawn terrible evil, and the revolution of information and innovation they hoped for may not be the one they get. Mischievous, beguiling, seductive, lascivious, unruly, carping, vengeful and manipulative – from the Disney princess to the murderous Medea, the articles in Re-visiting Female Evil grapple with our understanding of what it is to be and do evil femininities. In an idiosyncratic hybrid of diary and diatribe, the author lambastes many of the cultural icons of the 1990s. Meanwhile, he stumbles toward his own conclusions about sex, art, religion & mortality. There is something to offend everyone in this collection by a writer that Saul Bellow did not call a "disturbing new, if middle-aged, voice." The images and memories that matter most are those that are unshakeable, unforgettable. Kenneth Turan's fifty-four favorite films embrace a century of the world's most satisfying romances and funniest comedies, the most heart-stopping dramas and chilling thrillers. Turan discovered film as a child left undisturbed to watch Million Dollar Movie on WOR-TV Channel 9 in New York, a daily showcase for older Hollywood features. It was then that he developed a love of cinema that never left him and honed his eye for the most acute details and the grandest of scenes. Not to be Missed blends cultural criticism, historical anecdote, and inside-Hollywood controversy. Turan's selection of favorites ranges across all genres. From All About Eve to Seven Samurai to Sherlock Jr., these are all timeless films -- classic and contemporary, familiar and obscure, with big budgets and small -- each underscoring the truth of director Ingmar Bergman's observation that "no form of art goes beyond ordinary consciousness as film does, straight to our emotions, deep into the twilight room of the soul." In American Horror Story and Philosophy, philosophers with varying backgrounds and interests explore different aspects of this popular "erotic thriller" TV show, with its enthusiastic cult following and strong critical approval. The result is a collection of intriguing and provocative thoughts on deeper questions prompted by the creepy side of the human imagination. As an "anthology show," American Horror Story has a unique structure in the horror genre because it explores distinct subgenres of horror in each season. As a result, each season raises its own set of philosophical issues. The show's first season, Murder House, is a traditional haunted house story. Philosophical topics expounded here include: the moral issues pertaining to featuring a mass murderer as one of the season's main protagonists; the problem of other minds—when I see an old hag, how can I know that you don't see a sexy maid? And whether it is rationally justified to fear the Piggy Man. Season Two, Asylum, takes place inside a mid-twentieth-century mental hospital. Among other classic horror subgenres, this season includes story lines featuring demonic possession and space aliens. Chapters inspired by this season include such topics as: the ethics of investigative reporting and whistleblowing; personal identity and demonic possession; philosophical problems arising from eugenics; and the ethics and efficacy of torture. Season Three, Coven, focuses on witchcraft in the contemporary world. Chapters motivated by this season include: sisterhood and feminism as starkly demonstrated in a coven; the metaphysics of traditional voodoo zombies (in contrast to the currently fashionable "infected" zombies); the uses of violent revenge; and the metaphysics of reanimation. Season Four, Freak Show, takes place in a circus. Philosophical writers look at life under the Big Top as an example of "life imitating art"; several puzzles about personal identity and identity politics (crystallized in the two-headed girl, the bearded lady, and the lobster boy); the ethical question of honor and virtue among thieves; as well as several topics in social and political philosophy. Season Five, Hotel, is, among other disturbing material, about vampires. Chapters inspired by this season include: the ethics of creating vampire progeny; LGBT-related philosophical issues; and existentialism as it applies to serial killers. Season Six, Roanoke, often considered the most creative of the seasons so far, partly because of its employment of the style of documentaries with dramatic re-enactments, and its mimicry of The Blair Witch Project and Paranormal Activity. Among the philosophical themes explored here are what happens to moral obligations under the Blood Moon; the proper role of truth in storytelling; and the defensibility of cultural imperialism. Looming onto the television landscape in 2011, American Horror Story gave viewers a weekly dose of psychological unease and gruesome violence. Embracing the familiar horror conventions of spooky settings, unnerving manifestations and terrifying monsters, series co-

creators Ryan Murphy and Brad Falchuk combine shocking visual effects with an engaging anthology format to provide a modern take on the horror genre. This collection of new essays examines the series' contribution to television horror, focusing on how the show speaks to social concerns, its use of classic horror tropes and its reinvention of the tale of terror for the 21st century. Voyaging from the northernmost part of South Africa right to the south, the author noses his car down freeways and back roads into small towns, townships, and villages, some of which you'll have trouble finding on a map. Whether or not he's baffled, surprised, or sometimes plain angry, Sihle Khumalo will always find warmth in his fellow South Africans: security guards, religious visionaries, drunks, political activists and the many other colourful personalities that come alive in his riveting account. New York Times bestselling authors Barry Lyga and Morgan Baden have teamed up for the first time to create a novel that's gripping, terrifying and more relevant every day. Even hackers — like Cassie's dad — were powerless against it. But then the Hive came. A better way to sanction people for what they do online. Cause trouble, get too many "condemns," and a crowd can come after you, teach you a lesson in real life. It's safer, fairer and perfectly legal. Entering her senior year of high school, filled with grief over an unexpected loss, Cassie is primed to lash out. Egged on by new friends, she makes an edgy joke online. Cassie doubts anyone will notice. But the Hive notices everything. And as her viral comment whips an entire country into a frenzy, the Hive demands retribution. One moment Cassie is anonymous; the next, she's infamous. And running for her life. With nowhere to turn, she must learn to rely on herself — and a group of Hive outcasts who may not be reliable — as she slowly uncovers the truth about the machine behind the Hive. Telling an American Horror Story collects essays from new and established critics looking at the many ways the horror anthology series intersects with and comments on contemporary American social, political and popular culture. Divided into three sections, the chapters apply a cultural criticism framework to examine how the first eight seasons of AHS engage with American history, our contemporary ideologies and social policies. Part I explores the historical context and the uniquely-American folklore that AHS evokes, from the Southern Gothic themes of Coven to connections between Apocalypse and anxieties of modern American youth. Part II contains interpretations of place and setting that mark the various seasons of the anthology. Finally, Part III examines how the series confronts notions of individual and social identity, like the portrayals of destructive leadership in Cult and lesbian representation in Asylum and Hotel. After Charmed ended in 2006, witches were relegated to sidekicks of televisual vampires or children's programs. But during the mid-2010s they began to resurface as leading characters in shows like the immensely popular The Chilling Adventures of Sabrina, the Charmed reboot, Salem, American Horror Story: Coven, and the British program, A Discovery of Witches. No longer sweet, feminine, domestic, and white, these witches are powerful, diverse, and transgressive, representing an intersectional third-wave feminist vision of the witch. Featuring original essays from noted scholars, this is the first critical collection to examine witches on television from the late 2010s. Situated in the aftermath of the #MeToo movement, essays examine the reemergence and shifting identities of TV witches through the perspectives of intersectional gender studies, hauntology, politics, morality, monstrosity, violence, queerness, disabilities, rape, ecofeminism, linguistics, family, and digital humanities. Creed here again. A bloodthirsty demon possessed me, wearing my body like a cheap suit as he left a trail of dead across the city, and now people think I'm the murderer... Which is probably why I now find myself locked up in a Division prison cell, with only the demon inside me for company. And did I mention it's the same demon who murdered my family and imprisoned their souls in the Underworld? Well, it is, and he isn't happy that my family have escaped his domain. To get rid of this dark passenger, I have to travel to the Realm of the Dead where my mother and siblings are hiding out. The demon is hellbent on finding out how they escaped his domain in the Underworld. Once he finds that out, he'll leave me alone...or so he says. With demons, things are never that simple. And neither is staging a daring escape of my family from the Realm of the Dead, especially when there's an all-powerful tyrant there with other more sinister plans afoot. I'm in balls deep this time, and I've no choice but to go with the demon to the Realm of the Dead, and hope that I get out alive... Just so the demon can probably kill me anyway. But before I can go rushing toward my death, I need to find a way out of this damn prison cell... If you like snarky heroes, lots of action, and a healthy dose of grit and gore, you'll love the fourth and final instalment in N.P. Martin's series of urban fantasy/occult

suspense novels. Explore the Wizard's Creed universe and get lost in Blood Demon today.
