Independent Living: Living On Your Own Dec 30 2019 The Independent Living Series was developed to help students prepare for the real-life challenges of getting a job and making their way in the world. Living On Your Own provides practical advice and information to help students make

the transition from living at home to being responsible for themselves. The first section, Moving In, gives students the experience of setting up a household and discovering their own sense of design style. The second section, Food, covers everything from grocery shopping, meal planning, understanding and using a cookbook, to following a recipe. The Cleaning and Laundry sections prepare students for the less glamorous side of independent living with helpful tips to deal with basic chores. The Health and Safety sections are a reminder that living on your own means being responsible for your own health and well-being. Follow-up activities include practical application math, basic comprehension questions to reinforce understanding, and practical writing exercises. Some questions ask students to think about the information given and express their opinions and ideas. The vocabulary section includes a glossary of words students may not be familiar with. The glossary is divided up by sections allowing these unfamiliar words to be introduced before reading each section. To reinforce understanding, there are activity pages using the glossary words. Full color interiors and are editable.

Journey with Gwen Jan 11 2021 At twenty-six, a young, married Barbara Puffin had been living several states away from her mother, Gwen, and was darned glad about it. When friends down the street want to sell their house, a confused Barbara is drawn to suggest to her mother that she buy it and move there. Within the first year after Mom moves to her new home, a record blizzard, followed shortly by a flood and a tornado, leave Barbara guilt-ridden. While the next year holds the joy of the birth of Barbara's daughter, soon job place restructures feed Barbara's depression. Mainstream therapy doesn't work. Then Barbara is led to New Age thinking, and suddenly everything starts to make sense. Her new thinking processes are tested by the tragic death of a friend, but too much has changed, and Barbara cannot go back to her old perspective of life—or death. Gwen can't help but notice. Barbara meets a powerful teacher in another country while online. Because of the energetic exchanges, she shifts even further away from who she was, and psychic abilities emerge. Barbara knows she can't tell Gwen everything, and Gwen is confounded by the shift. As they age, Barbara moves into a caretaker role for Gwen. Barbara's strength and ingenuity allow her to keep Gwen independent as Gwen suffers a series of strokes. With friend Jacky's assistance and alternative medicine, Gwen's independence is kept intact. They are all assisted by unseen help. Barbara and Gwen have a transformational experience without traveling to India, staying in Indiana. That's only two letters extra.
