From Networks to Netflix May 27 2022 Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery, the television channel itself persists. If anything, the television channel landscape has become more complex to navigate as viewers can now choose between broadcast, cable, streaming, and premium services across a host of different platforms and devices. *From Networks to Netflix* provides an authoritative answer to that navigational need, helping students, instructors, and scholars understand these industrial changes through the lens of the channel. Through examination of emerging services like Hulu and Amazon Prime Video, investigation of YouTube channels and cable outlets like Freeform and Comedy Central, and critiques of broadcast giants like ABC and PBS, this book offers a concrete, tangible means of exploring the foundations of a changing industry.

Issues in Advanced Television Technology Feb 09 2021 Drawn from the pages of his popular |Advanced Television| column in TV Technology magazine, *Issues in Advanced Television Technology* collects the new television writings of technical author S. Merrill Weiss. Noted for his relaxed, conversational style and easily understood explanations, Weiss leads the reader on an enjoyable trip through the latest developments, making highly complex subjects accessible to those with all levels of experience. His material is of value to business managers making strategic decisions, technical managers forming implementation choices, as well as system designers and operators preparing for future work assignments. Included in the discussion are the interests of broadcasting, cable, wireless cable, telcos, DBS, and packaged media. Covering the broad range of new technologies with a depth not achieved elsewhere short of textbooks, Weiss introduces subjects such as digital video compression, transmission of digital signals, audio compression, adaptive equalizers, packetization, transport and program streams, multiplexing, MPEG-2, serial digital jitter, storage and servers, data broadcasting, and the motivations of the players in the media of the future. Merrill's articles are collected by many, but early back issues are no longer available. Now, get all the articles in one place, organized by topic, updated and indexed. Catch up on what you've missed! Take advantage of the easy access. Increase your knowledge. Prepare for your future. Let *Issues in Advanced Television Technology* take you on an exploration of the marvels of the next generation of video technology. S Merrill Weiss is an award-winning consultant in electronic media technology, technology management, and management. He has nearly three decades of personal experience developing and implementing new television technologies, participating in the writing of standards, and generally thinking about how to move the industry forward. Through his regular monthly series of articles, and now through this, his second book, he shares his understanding of where things are going.

Faith and Feminism in Nineteenth-Century Religious Communities Jan 03 2023 Explore a diversity of feminist readings of the Bible This latest volume in the Bible and Women series is concerned with

documenting, through word and image, both well-known and largely unknown women and their relationship to the Bible from the period of the late eighteenth century up to the beginning of the twentieth century. The essays in this collection illustrate the broad range of treatment of the Holy Scripture. Paul Chilcote, Marion Ann Taylor, Christiana de Groot, Elizabeth M. Davis, and Pamela S. Nadell offer perspectives on the Anglo-American sphere during this period. Marina Cacchi, Adriano Valerio, Inmaculada Blasco Herranz, and Alexei Klutschewski and Eva Maria Synek illuminate the areas of southern and eastern Europe. Angela Berlis, Ruth Albrecht, Doris Brodbeck, Ute Gause, and Michaela Sohn-Kronthaler examine women from the German-speaking world and their texts. Bernhard Schneider, Magda Motté, Katharina Büttner-Kirschner, and Elfriede Wiltschnigg treat the subject area of religious literature and art. Features Insight into how women participated in academic exegesis and applied biblical figures as models for structuring their own lives Exploration of genres used by women, including letters, diaries, autobiographical records, stories, novels, songs, poems, and specialized exegetical treatises and commentaries on individual books of the Bible Detailed analyses of women's interpretations ranging from those that sought to confirm traditions to those that challenged them

APAIS, Australian Public Affairs Information Service Apr 25 2022 Vol. for 1963 includes section Current Australian serials; a subject list.

Film Policy Oct 20 2021 The first comprehensive overview of the workings of the international film industry. The authors explore the relationship between Hollywood cinema product and national film cultures and look at issues of financing, regulation and censorship. Film Policy is the first comprehensive overview of the workings of the international film industry. The authors examine film cultures and film policy across the world, explaining why Hollywood cinema dominates the global film market, and the effects of the rise of television and video on the international industry. In a series of case studies drawn from North America, Europe, Latin America, Asia and Australia, the authors explore the relationship between Hollywood cinema product and national film cultures, and trace the development of international and national film policies, looking at issues of financing, regulation, protectionism and censorship.

Video Economics Aug 30 2022 Video Economics is an analysis of the economics and business strategies of the television industry. Bruce Owen and Steven Wildman identify the complex chain of programme producers, distributors (networks), and retailers (video stores, cable systems, and broadcast stations), whose objectives are to obtain viewers in order to sell them to advertisers, to charge them an admission fee, or both. Among the concepts the authors explain and apply are those of public good, economies of scale, and price discrimination.
