Excerpt from A Treatise on Atonement: In Which the Finite Nature of Sin Is Argued, Its Cause and Consequences as Such; The Necessity and Nature of Atonement; And Its Glorious Consequences, in the Final Reconciliation of All Men to Holiness and Happiness The "Treatise on Atonement," is one of the great books of American theology. It is a work which had a wide immediate influence, and still wider sequences. It is remarkable as being the first American book to anticipate all the essential points of the liberal theology of the present day. A hundred years ago when the great words dear to modern Christian ears had been scarcely heard or hinted, Hosea Ballou produced a volume in

which they are all distinctly uttered, with a conviction in which there is no wavering or uncertainty. He was the first to catch the meaning of the stir and ferment in the religious thought of the times, and interpret it. The Fatherhood of God and the Brotherhood of man; Jesus the Interpreter of God to humanity; Salvation by Character, and not by decree or by doctrinal orthodoxy; penalty as the natural consequence and concurrent of sin; and the Largest Hope for man; - these are the great ideas which are assuming a primary importance in the minds of Broad-Churchmen of every name to-day. Now these same ideas are all presented in the "Treatise." About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. What do Robben Island, Colonel Gadaffi, the earthquake in Haiti, the riots in London, credit crunch, child abuse, and the death of Christ have in common? They are all linked by the common thread of violence. Tom Stuckey reexamines the traditional theories of atonement, which he argues are contextual and utilitarian, as he searches for meaning and hope in these contemporary events. In *The Wrath of God Satisfied?*, Tom Stuckey argues that because we live in a violent world, we should not dismiss the idea of the wrath of God or the disturbing metaphors of blood, debt, satisfaction, and sacrifice. While not subscribing to the theory of penal substitution, he does not dismiss it. Within a dynamic interpretation of the Trinity, the author draws on the insights of Athanasius, Anselm, Abelard, Luther, Calvin, Julian, Girard, Augustine, Barth, and contemporary theologians to show how divine wrath "being satisfied" poses the question of God in its most acute form. Stuckey sees God's wrath as a necessary shadow cast by the powerful light of hope and argues that wrath cannot be dismissed if justice is to be restored. The Scottish theologians John McLeod Campbell, Hugh Ross Mackintosh and Thomas F. Torrance were theologians of reconciliation, who emphasized the reality of God's redemptive grace in the person and work of Jesus Christ. In this magisterial treatment, Andrew Purves unfolds the riches of their theology for pastoral ministry today. Holiness and Happiness In order to come at the subject of atonement, so as to have light continually shining along the path which I intend to occupy, I found it necessary to shew my reasons for not admitting the doctrine, on the ground on which it is usually argued; to do which, I found I must, of necessity, show, that the common notion of the VIII! How are we to best understand the statement of faith that Jesus Christ lived, died and rose again 'for us and for salvation?' This question has animated Christian thought for two millennia: it has also bitterly divided believers, not least in Reformation and post-Reformation disputes about atonement, justification, sanctification and sacrifice. René Girard's *Violence and the Sacred* (1972) made startling connections between religion, violence and culture. His work has enlivened the theological and philosophical debate once again, especially the question of whether and how we are to understand Christ's death as a 'sacrifice'. *Mimesis and Atonement* brings together philosophers from Catholic, Evangelical, Orthodox, and Jewish backgrounds to examine the continued significance of Girard's work. They do so in the light of new developments, such as the controversial 'new scholarship' on Paul. Adam and Eve were not just naughty, disobedient children. They were created in God's image. They had God's desire for creative expression and awareness. As long as they remained in the Garden, they could not take the next step in their evolution. How do you convince a dependent, obedient child to leave home, especially if there is a comfortable bed and three gourmet meals served every day? Adam and Eve weren't going to make a conscious choice to leave the comforts of the Garden. The choice had to be made at an unconscious level. They were driven by a desire they did not yet understand. And so these two archetypal beings began a spiritual journey that would take them from sin to atonement, from ignorance to knowledge, from denial to responsibility. They would have to explore their darkness to find the light. They would have to become sinners to discover the blueprint for their redemption. They would have to experience the limits of their bodies, their minds and

the three dimensional would to know that their true nature transcended all this. To become God, they had to first become human. Book jacket. James K. Beilby and Paul R. Eddy edit a collection of essays on four views of atonement: the healing view, the Christus victor view, the kaleidoscopic view and the penal substitutionary view. This is a book that will help Christians understand the issues, grasp the differences and proceed toward a clearer articulation of their understanding of the atonement. Sin isn't relevant anymore. Alan Mann takes seriously this often-heard assertion and instead goes in search of the real plight at the heart of contemporary western society. What he finds there is a personal, pervasive, and self-diminishing disease impacting the lives of millions of people: shame. With this insight, *Atonement for a Sinless Society* seeks a fresh encounter with the biblical narrative, building a more meaningful understanding of the story of Jesus and his disciples for the world in which we live and, in doing so, bringing the Christian understanding of atonement into the twenty-first century. Do atonement theologies that focus on Jesus' death underwrite human violence? If so, we do well to rethink beliefs that this death is necessary to bring salvation. Focusing on the Bible's salvation story, *Instead of Atonement* argues for a logic of mercy to replace Christianity's traditional logic of retribution. The book traces the Bible's main salvation story through God's liberating acts, the testimony of the prophets, and Jesus's life and teaching. It then takes a closer look at Jesus's death and argues that his death gains its meaning when it exposes violence in the cultural, religious, and political Powers. God's raising of Jesus completes the story and vindicates Jesus's life and teaching. The book also examines the understandings of salvation in Romans and Revelation that reinforce the message that salvation is a gift of God and that Jesus's "work" has to do with his faithful life, his resistance to the Powers, and God's vindication of him through resurrection. The book concludes that the "Bible's salvation story" provides a different way, instead of atonement, to understand salvation. In turn, this biblical understanding gives us today theological resources for a mercy-oriented approach to responding to wrongdoing, one that follows God's own model. "Against the assumption that Torah and the Prophets display a God of retribution, Grimsrud shows both picture God as merciful. Rather than dying because God demanded retribution for sin, Jesus died because the powers that opposed him--law, temple, empire--demanded retribution for breaking their rules. Many such challenges to the presumed biblical view of retribution make *Instead of Atonement* a welcome addition to recent arguments rejecting the prevailing acceptance of divine violence." --J. Denny Weaver, author of *The Nonviolent Atonement* "In the last quarter century, the theology and ethics of retributive justice have come under long-overdue critical scrutiny. Practical experiments in peacemaking and restorative justice are challenging conventional wisdom, animating social imagination, and inspiring radical revisions of traditional atonement soteriology. Ted Grimsrud--one of our most reliable first-world theologians--provides the most concise, readable, and compelling summary to date of the biblical case for the 'turn to

restorative justice.' This book will help empower a revolutionary reclamation of a healing Christian faith for our violent times." --Ched Myers, author of *Binding the Strong Man* Ted Grimsrud is Professor of Theology and Peace Studies at Eastern Mennonite University in Harrisonburg, Virginia. Among his books are *Compassionate Eschatology: The Future as Friend* (2011), *God's Healing Strategy: An Introduction to the Main Themes of the Bible* (2011), *Theology as if Jesus Matters* (2009), and *Embodying the Way of Jesus: Anabaptist Convictions for the Twenty-First Century* (2007). *The Forsaken Son* engages the provocative coincidence of the vocabularies of infanticide and Christianity, specifically atonement theology, in six modern American novels: Flannery O'Connor's *The Violent Bear It Away*, the first two installments of John Updike's *Rabbit* tetralogy, Toni Morrison's *Beloved*, Joyce Carol Oates's *My Sister, My Love*, and Cormac McCarthy's *Outer Dark*. Christian atonement theology explains why God lets His son be crucified. Yet in recent years, as an increasing number of scholars have come to reject that explanation, the cross reverts from saving grace to trauma—or even crime. More bluntly, without atonement, the cross may be a filicide, in which God forces his son to die for no apparent reason. Pederson argues that the novels about child murder mentioned above likewise give voice to modern skepticism about traditional atonement theology. In recent decades, the church and academy have witnessed intense debates concerning the concept of penal substitution to describe Christ's atoning sacrifice. Some claim it promotes violence, glorifies suffering and death, and amounts to divine child abuse. Others argue it plays a pivotal role in classical Christian doctrine. Here world-renowned New Testament scholar Simon Gathercole offers an exegetical and historical defense of the traditional substitutionary view of the atonement. He provides critical analyses of various interpretations of the atonement and places New Testament teaching in its Old Testament and Greco-Roman contexts, demonstrating that the interpretation of atonement in the Pauline corpus must include substitution. *Die Abgründe und die Macht der Leidenschaft und der Phantasie: An einem heißen Tag im Sommer 1935 spielt die dreizehnjährige Briony Tallis Schicksal und verändert dadurch für immer das Leben dreier Menschen.* Critical and creative studies that offer fresh perspectives on ancient ideas and practices The contributions to this volume deal in various ways with the cult at the Jerusalem Temple that epitomized the religious, cultural, and socio-political identity of Judaism for many centuries. Some essays examine ancient constitutive practices and concepts, such as purification rituals, sacrifices, atonement, or sacred authorities at the temple, with the goal of interpreting their meanings for modern readers. Other essays explore alternatives to ancient cultic meaning and practice. Essays critique established traditions, attempt to renegotiate them, or use metaphor and spiritualization to expand the potential of these phenomena to serve as terminological and ideological resources. Thus they examine and affirm the continuing relevance of ancient Jewish cultic notions long after the destruction of the Second Temple in 70 CE. An international group of scholars representing different fields

and diverse religious backgrounds A thorough examination of traditions as through the lens of contemporaneous interpretive traditions such as Jewish prophecy, the Dead Sea Scrolls, and Early Christian literature Examination of topics such as purification, sacrifice, and atonement, and the depiction and development of sacred authority throughout the Bible Offers a well-nuanced and well-grounded constructive theology of Trinitarian atonement. In this groundbreaking book, Michael Gorman asks why there is no theory or model of the atonement called the "new-covenant" model, since this understanding of the atonement is likely the earliest in the Christian tradition, going back to Jesus himself. Gorman argues that most models of the atonement over-emphasize the penultimate purposes of Jesus' death and the "mechanics" of the atonement, rather than its ultimate purpose: to create a transformed, Spirit-filled people of God. The New Testament's various atonement metaphors are part of a remarkably coherent picture of Jesus' death as that which brings about the new covenant (and thus the new community) promised by the prophets, which is also the covenant of peace. Gorman therefore proposes a new model of the atonement that is really not new at all--the new-covenant model. He argues that this is not merely an ancient model in need of rediscovery, but also a more comprehensive, integrated, participatory, communal, and missional model than any of the major models in the tradition. Life in this new covenant, Gorman argues, is a life of communal and individual participation in Jesus' faithful, loving, peacemaking death. Written for both academics and church leaders, this book will challenge all who read it to re-think and re-articulate the meaning of Christ's death for us. The "Day of Atonement" in Leviticus 16 had a formative influence on Judaism and Christianity. The essays in this volume form a representative cross section of the history of reception of Leviticus 16 and the tradition of the Yom ha-Kippurim. In this book, James A. Greenberg examines animal sacrifice in Priestly Torah texts found in Leviticus 1-16, Exodus, and Numbers. Through his analysis, Greenberg identifies a new valence of kippur as a process that produces a positive result between two objects and argues that the Israelite sanctuary exists to facilitate a connection between YHWH, sancta, and the Israelites through the medium of blood. Rather than beginning with a priori assumptions of what sacrificial terms and symbols mean, Greenberg allows his interpretation to develop through an accumulation of textual clues. To avoid the exegetical pitfalls of symbolic and structuralist approaches, he focuses on what the language of the ritual says about sacrifice and what it seeks to accomplish. His investigation considers why the flesh and blood of an animal are used by the priest as he mediates on behalf of the offerer through the medium of YHWH's sanctuary, what the difference is between intentional and unintentional sin, how the meaning of kippur changes from one sacrifice to the next, whether the sanctuary can be both holy and unclean, and how priests conceive of YHWH's interaction with sancta, the offerer, and the animal. *A New Look at Atonement in Leviticus* recalibrates our understanding of kippur and furthers our knowledge of the priestly cult in ancient Israel. It will especially interest scholars

of Biblical Hebrew and the Old Testament in particular. The authors of this book claim that to abandon the Christian doctrine of the Atonement is to abandon the central witness of the gospel, for atonement speaks of nothing less than God 's reconciliation of the world in the life, death, and resurrection of Jesus Christ. Drawing on the classical theories of the Atonement, engaging in creative theological construction, they present a set of cogent, cohesive alternatives to either rejecting the doctrine out of hand, or uncritically accepting it. Recent scholarship on the historical Jesus has rightly focused upon how Jesus understood his own mission. But no scholarly effort to understand the mission of Jesus can rest content without exploring the historical possibility that Jesus envisioned his own death. In this careful and far-reaching study, Scot McKnight contends that Jesus did in fact anticipate his own death, that Jesus understood his death as an atoning sacrifice, and that his death as an atoning sacrifice stood at the heart of Jesus' own mission to protect his own followers from the judgment of God. An examination into and an elucidation of the great principle of the Mediation and Atonement of our Lord and Savior Jesus Christ This companion volume to T. F. Torrance's *Incarnation: The Person and Life of Christ* presents the material on the work of Christ, centered in the atonement, given originally in his lectures delivered to his students in *Christian Dogmatics on Christology* at New College, Edinburgh, from 1952-1978. This book examines the doctrines of election and atonement in Karl Barth's *Church Dogmatics*, taking up Barth's own challenge to his reader to surpass his argument and offer a better typological interpretation of the cultic texts. Barth's radical re-working of Calvin's doctrine of election is one of the most important developments in twentieth-century theology. Christ synthesizes for Barth a particular dialectic: the binary structure of God's Yes of election and God's No of rejection. The book's central question--how can Jesus simultaneously be both the elected and the rejected (CD II/2), acting as both the judge and the judged (CD IV/1)?--is followed by an exploration of the roles of the Holy Spirit and human freedom in God's electing and saving action. Commentators both acknowledge Barth's innovation in this area and identify problems with his approach, but few have offered what David Ford has called a correction ""from within"" Barth, using Barth's own method. Using the concept of *Existenzstellvertretung*, this critique of Barth's exegetical justification for the doctrines offers an alternative exegesis that not only provides this much-needed correction, but also immerses the reader in a fresh engagement with Scripture itself. ""Probing Karl Barth's magisterial revision of the traditional doctrines of election and reconciliation, Matthias Grebe offers a constructive critique of the forensic understanding of Christ's saving work. His comprehensive

and carefully developed argument, coupled with an in-depth knowledge of recent debates in biblical studies, sets a high standard for future study of the 'Church Dogmatics.'"" --Matthias Gockel, Friedrich-Schiller University Jena, Jena, Germany ""This book offers a close reading of the central pillars of Barth's theology: the result, a constructive pushing of the doctrines of election and atonement in new directions. Wrestling with the biblical tradition, Grebe plays Barth at his own game and tests the exegeses that lie at the heart of Barth's dogmatic proposals. Grebe emerges as a reliable interpreter of Barth's thought and a provocative theologian in his own right.""" --Ashley Cocksworth, The Queen's Foundation, Birmingham, UK ""Grebe has produced a bold and important book on a central theme for Barth studies and theology more broadly. Grebe's approach of considering Barth's theology in light of biblical interpretation is not only a sound one, but also one which reflects Barth's own concerns and sets an important trajectory for Barth studies in the future.""" --Tom Greggs, University of Aberdeen, Aberdeen, Scotland Revd Dr Matthias Grebe studied theology at Tübingen, Cambridge, and Princeton. He is currently a post-doctoral researcher at the University of Bonn. This book explores the way in which we understand the story of our salvation - the fundamental narrative which irreplaceably informs Christian living and reflection. the story of atonement is both simple and surprising and has always given rise to demands for explanation: What does justification mean? Is there literally no reward for merit? What about other religions? Can one believe in heaven and hell? How does one justify evangelism? All these questions arise directly out of the story of salvation, and experience suggests that each of them is a living issue for Church members. The story of atonement turns out to be not one narrative but a number of differing versions of a narrative, which Christians keep in their heads in fragments, rather than as one overarching, coherent epic. A brief discussion of Milton's *Paradise Lost* shows the difficulty of this epic form, and the way in which more than one version of the story actually informs the way Christians inhabit atonement. the question of heaven and hell is faced directly, and its bearing on evangelism explored. Stephen Sykes explains the story of atonement in a way that is both accessible and profound. this is the perfect guide to understanding not only the way in which we grasp atonement, but how we live within its power. Why did Jesus Christ die on the cross? Throughout Church history one will find many different answers. The right answer is critical to salvation and entering into a right relationship with Jesus Christ. This current volume is a masterful biblical survey and polemic that illuminates the Bible's doctrine of Christ's atonement. It is doubted whether any other work of the same compass presents so clearly and forcibly the truth of

God as to the Nature, Truth, Perfection, Matter, and Extent of the Satisfaction made by the our Savior. Turretin's lucid arrangement of topics, compact argumentation, fairness of statement, and constant appeal to the law and the testimony, leave the careful reader little to desire. It had been said that Turretin is the best expounder of doctrine that the Reformed church has ever known, and this work on the atonement is an example of his exegetical, logical and practical insight into the work of our Lord's life and sacrifice. This is not a scan or facsimile, has been updated in modern English for easy reading and has an active table of contents for electronic versions. This volume presents a dialogue between historians, exegetes, and theologians on the background and key themes of the atonement in Hebrews. Presenting a range of differing perspectives and contributing to the renewed conversation between biblical and theological scholarship, the argument is structured in two parts: contexts and themes within Hebrews. Focusing on atonement not only in the Old Testament but also in the Greco-Roman world, and touching on themes such as sacrifice, plight and solution, and faith, these contributions shed light on the concept of the atonement in a directly scriptural way. The whole is a definitive collection of studies on the atonement in Hebrews that will be of service well beyond the confines of Hebrews' specialists, a collection as important for what it says about the atonement and the 21st century church as for what it says about Hebrews. In this book, Dr. Taylor develops more fully the treatment of the doctrine of the Atonement set out in the closing section of his earlier work, *Jesus and His Sacrifice*. Here he examines the whole of the New Testament evidence relating to the Atonement, and attempts a constructive statement of the theory in which attention is given to points which require further elucidation and treatment. The aim throughout is practical and the method positive. The cross of Christ is undeniably central to the Christian faith. But, how can the cruelty and brutality of a two-thousand-year-old Roman cross touch base with a hedonistic world that has been so desensitized towards violence? Within the postmodern setting of a body-obsessed culture, Christianity urgently requires an innovative and stimulating way of understanding the cross and its atoning significance. At the heart of this book is the Naked Christ--an emblem through which the author draws on the rich resources of the Christian tradition in its portrayal of the cross. He explores how the metaphors of nakedness and clothing can encapsulate aspects of atonement and enable them to be understood within a variety of contemporary contexts. The Naked Christ is a useful resource for anyone seeking fresh ways to express what the cross of Christ means to contemporary culture.
