Don't miss the opportunity to download *Running*, prequel to the Iron series, FREE on Google Play. Book 1: Too Bright the Sun A man hell-bent on revenge for the death of his friend, in battle! Seeking revenge for the death of a friend ten long years ago,

Major Jake Nanden has pursued his own personal demons with an almost religious fervour through life and through battle. He is a soldier so highly decorated for bravery that his fame reaches far beyond the desolate Jupiter moon, Io, where his battalion is stationed. His victories in the Jupiter Wars are hollow though, for he is a man scared of his own soul. His life seems to be a trap from which he cannot escape. His is the Replicant Company, and replicants, or clones, are despised by all. Book 2: Unknown Place, Unknown Universe Three rookie space cadets crash on an unknown planet with aliens hot on their tail! While a dissident alien scientist struggles to control time, he discovers that his wife will betray him. His favourite student discovers a way to see into the past but find himself surrounded by enemies in a complex, fragmenting culture. Meanwhile, Stone, douchebag son of Iron Cross winner Jake Nanden, a nerd and a feminist from the Space Fleet Academy

crash-land on an unknown planet after falling through a worm-hole in this gripping and visionary science fiction thriller. Called Anubians by humans, the jackal-headed aliens are now revealed as Ischians but they are hiding something on this unknown planet in an unknown universe. Stone's world is shattered while he tries to escape and warn Earth of danger. Book 3: Worlds Like Dust Domes now cover Earth's big cities and soon a force field will trap Earth inside! The jackal-headed Ischians are here! When General Jake Nanden retired from the USAC, he could never have guessed that his greatest battle was still to come. Since then, he has joined a spiritual cult called the Blue Path, trying to establish communication with a few peaceful Ischians. But now his world has been torn apart; his wife and youngest son have been killed, probably his eldest too and the Los Angeles and Washington citizens sweat it out under inescapable alien domes. His son, Stone, warned him of the

invasion and he joined up with Gary Enquine to form a rudimentary resistance network. Now, they must find a way to rise up and defeat the conquerors of Earth! Nanden must escape and unite the remaining human and clone forces, scattered across the Solar System. Likened to a cross between Blade Runner and Paths of Glory, you simply must read this beautifully constructed, intensely dark and powerful Science Fiction thriller Series, if you love Phillip K. Dick and Isaac Asimov. Character interview with Jake Nanden. Name (s): Jake Nanden Age: 34 Please tell us a little about yourself. I am 5'11', dark hair, short - Army cut, slightly curly. Green eyes. Describe your appearance in 10 words or less. Getting middle aged, slightly paunchy with drying skin - like paper in places - except my mech arm. That's synthetic skin on there and as smooth and supple as the day it was sprayed on. I even had mine tattooed but don't tell anyone. Would you kill for those you

love? I kill every day - most days - to keep my culture intact. I would say that is killing for those I love. Of course there is a moral code... And as a soldier the moral code is almost everything. After a while... killing... it sometimes seems to be the only thing you have left. Family are too far away. Smile with Knowledge May 26 2022 Already delayed at the point of origin, having missed a connecting flight, required to spend another night in an interim hotel in a foreign country, and now this! It was as if destiny was preparing him well for this journey of unknowns that he had embarked upon...As Gyana sat in the room alone and looked at the single window with bars, it felt like being in a jail, waiting

to be rescued from suspicion. Will they be able to verify his paperwork and identity? Will they do it in a timely manner to enable him to continue with his travel plans? What will happen if they are not able to verify the documents? A multitude of questions played havoc on his mind, with no answers in sight. —excerpt from Smile with Knowledge Describing the ground realities faced by an Indian couple when they moved from India to the United States in the early 90's in an age without internet or cell phones, this is a first hand account of the life as foreign students in the U.S., along with its myriad perks and challenges. Relating a true story of success while balancing life on a shoestring budget, this is also a tale of small hopes, small pleasures, small battles, and small victories, and yet how all these small things together formed a memorable journey that was larger than life.

TAG - Math is it! Grades 3 - 5 Jul 28 2022

Mathematics can be fun and exciting if we as teachers make it exciting and fun for our students. Our goal, as authors of this book, is to help you find creative ways to bring enjoyable mathematics material into your classroom. TAG - Tricks, Activities, and Games are ideas that we have implemented in our own teaching to help students explore, discover, conjecture, investigate, verify, explain, and understand mathematics in a creative and motivating way. It is important to arouse each student's curiosity by presenting mathematics in fresh and stimulating ways that are captivating and motivating. The ideas presented in this book are designed to help students become powerful mathematics thinkers and to help them make sense out of mathematics. Based on the NCTM Standards and NCTM's new Focal Points, we have

emphasized Number and Operations, Algebra, Geometry, Measurement, and Data Analysis and Probability. We have provided objectives, materials, procedures, and solutions to the entries.

Connecting the Drops Dec 21 2021 The need for improved water resource protection, beginning with grassroots action, is urgent. The water we use depends on networks of wetlands, streams, and watersheds. Land-use activities, however, are changing these natural systems. Often these changes result in ecological damage, flooding, water pollution, and reduced water supply. We need a healthy environment that sustains our personal and community health; we also need vibrant and sustainable economic development that does not destroy the benefits we derive from nature. Our ability to accomplish both

depends on how well we can "connect the drops." In this book, Karen Schneller-McDonald presents the basics of water resource protection: ecology and watershed science; techniques for evaluating environmental impacts; obstacles to protection and how to overcome them; and tips for protection strategies that maximize chances for success. Schneller-McDonald makes clear the important connections among natural cycles, watersheds, and ecosystems; the benefits they provide; and how specific development activities affect water quality and supply. The methods described in *Connecting the Drops* have broad application in diverse geographic locations. The environmental details may differ, but the methods are the same. For water resource managers and concerned citizens alike, *Connecting the Drops* helps readers interpret scientific information and contextualize news media reports and industry ads—ultimately offering "how

to" guidance for developing resource protection strategies. Regional Transit Connection Fast Pass Survey Jan 10 2021 *L'adieu aux bêtes* Jun 02 2020 **The Cavity Connection** Sep 25 2019 Abstract: Personal narratives from dentists, survey data, case studies, and a survey assessment comprise a report which petitions the US Federal Trade Commission (FTC) to ban or regulate TV advertisements for sugary products aimed at children. The survey claimed that the regulation of TV advertising to children would improve children's eating habits and lead to a reduced incidence of caries; 75% of the dental professionals surveyed (a selected group) supported the FTC effort for children under

12 years of age. The report also maintained that parents, by themselves, are unable to control their children's television viewing or consumption of sugary foods. The survey involved 36 California dental offices and clinics and 672 (principally health) professionals across the US. (wz).

Investigating Internet

Crimes May 02 2020 Written by experts on the frontlines, Investigating Internet Crimes provides seasoned and new investigators with the background and tools they need to investigate crime occurring in the online world. This invaluable guide provides step-by-step instructions for

investigating Internet crimes, including locating, interpreting, understanding, collecting, and documenting online electronic evidence to benefit investigations. Cybercrime is the fastest growing area of crime as more criminals seek to exploit the speed, convenience and anonymity that the Internet provides to commit a diverse range of criminal activities. Today's online crime includes attacks against computer data and systems, identity theft, distribution of child pornography, penetration of online financial services, using social networks to commit crimes, and the deployment of viruses, botnets, and email scams such as phishing. Symantec's 2012 Norton Cybercrime Report stated that the world spent an estimated \$110 billion to combat cybercrime, an average of nearly \$200 per victim. Law enforcement agencies and corporate security officers around the world with the responsibility for enforcing, investigating and prosecuting

cybercrime are overwhelmed, not only by the sheer number of crimes being committed but by a lack of adequate training material. This book provides that fundamental knowledge, including how to properly collect and document online evidence, trace IP addresses, and work undercover. Provides step-by-step instructions on how to investigate crimes online Covers how new software tools can assist in online investigations Discusses how to track down, interpret, and understand online electronic evidence to benefit investigations Details guidelines for collecting and documenting online evidence that can be presented in court
